United States Department of Agriculture,

BUREAU OF ANIMAL INDUSTRY.

JOHN R. MOHLER, CHIEF OF BUREAU.

SERVICE AND REGULATORY ANNOUNCEMENTS.

DECEMBER, 1918.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

ROLL OF HONOR.

The following are the names of former bureau employees who were granted leave to enter the military service of the United States and who have since died while in that service. Their names are recorded as an addition to those published in Service and Regulatory Announcements for November, 1918, page 96:

Arthur T. Harris, of the District of Columbia, laboratory assistant, appointed in the bureau on February 16, 1917, entered the military service May 21, 1917, and was lost with the U. S. S. *Tampa*, which was sunk in the Bristol Channel September 26, 1918.

Harold L. Campbell, of Missouri, stenographer and typewriter, appointed in the bureau on May 2, 1917, entered the military service December 16, 1917, and died of pneumonia while on foreign duty August 2, 1918.

LEAVE ALLOWED ON SEPARATION FROM THE SERVICE.

By order of the Secretary of Agriculture paragraph 46 of the Administrative Regulations is hereby amended to read as follows, effective December 1, 1918:

On separation from the department by resignation, transfer, or any other termination of appointment without prejudice, employees may, in meritorious cases, be granted accrued leave at the rate of $2\frac{1}{2}$ days for each month of service since the first of the calendar year for employees in the District of Columbia and $1\frac{1}{4}$ days for employees outside of the District of Columbia, except in such field offices as enjoy equal privileges under the law with employees in the District of Columbia. As a rule more than accrued leave will not be granted at the time of such separation, but the Secretary will consider a recommendation for the waiver of his limitation when the employee concerned has been in the executive civil service for three years or more, or when there are especially meritorious reasons why an exception should be made.

Whether employees dismissed from the service for cause shall be allowed accrued leave is a matter to be determined by the Secretary, upon the recommendation of the chief of bureau concerned, according to the circumstances in each case. An employee dismissed from the service for cause may be required, in the discretion of the Secretary, to make refund from his salary for leave already taken in excess of accrued leave.
